Modification Request Process

Under the PRA (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires federal agencies to publish a 60-day notice in the Federal Register concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice.

2. Type of Information Collection Request: Extension of a currently approved collection; Title of Information Collection: Healthcare Common Procedure Coding System (HCPCS) – Level II Code Modification Request Process; Use: Each year, in the United States, health care insurers process over 5 billion claims for payment. For Medicare and other health insurance programs to ensure that these claims are processed in an orderly and consistent manner, standardized coding systems are essential. The Healthcare Common Procedure Coding System (HCPCS) Level II Code Set is one of the standard code sets used for this purpose. Level II of the HCPCS, also referred to as alpha-numeric codes, is a standardized coding system that is used primarily to identify products, supplies, and services not included in the CPT codes, such as ambulatory services and durable medical equipment, prosthetics, orthotics, and supplies (DMEPOS) when used in the home or outpatient setting.

The HCPCS codeset has been maintained and distributed via modifications of codes, modifiers and descriptions, as a direct result of data received from applicants. The HCPCS codeset maintenance is an ongoing process, as changes are implemented and updated annually; therefore, the process requires continual collection of information from applicants on an annual basis. As new technology evolves and new devices, drugs and supplies are introduced to the market, applicants submit applications to us requesting modifications to the HCPCS Level II codeset. Form Number: CMS-10224 (OCN: 0938-1042); Frequency: Annually; Affected Public: Private sector - Business or other for-profits and Not-for-profit institutions; Number of Respondents: 300; Total Annual Responses: 300 Total Annual Hours: 3,300.
